

Instructions for Sterling 101C Self Coiling Combination Cable

To open

- The new lock is preset to open on four dashes “ - - - -” or “ 0-0-0-0”
- Align the combination between the raised markers and **pull apart**

Setting a new combination

1. Rotate clockwise 90° the black ring inside the yellow dials.
2. Turn the yellow dials to set your new secret four digit number between the raised markers.
3. Make a record of the new number.
4. Rotate anti-clockwise the black ring to its original position.
5. Verify you new combination before using by pushing the two ends fully together. To lock jumble numbers.
6. The operation is now complete. Repeat steps 1-5 to change the secret combination.
