

# Safer Summer Nights with Sterling

Longer nights are finally on the way, which means gardens full of kit to keep safe.

From bikes to barbecues – or lawnmowers to loungers – furniture and tools are guaranteed to be out and about in the garden right now almost as much as you are. But how can you make sure that your fun isn't spoiled by a light-fingered thief?

The answer from Sterling is a set of strong locks. Barbecues and dining sets are simple to secure with Sterling **Link & Lock**. It's a matter of seconds to loop them together with an extra-strong braided steel **Double Loop Security Cable** (ssp from £4.99) and lock them up with a **Weatherproof Padlock**. For added security, a Sterling **Ground Anchor** (ssp from £13.99) will provide a permanent fixing. Keeping things where they should be has never been so easy.

The Sterling selection of security products has a solution for all of your summer needs. Garden tools such as ladders or lawnmowers can be linked together with chains or cables and protected with a heavy-duty **Double-Locking Brass Padlock**. Bikes can be secured with a Self-coiling locking cable which can be stored conveniently on the bike when not in use.

All of the Sterling chains or cables come with protective sleeving to avoid scratching paintwork or damaging wooden furniture or finishes. Sterling padlocks can also be bought in keyed-alike multi-packs, meaning you can lock many items with the same key.

Whatever your security needs this summer, Sterling has the solution.

With an emphasis on quality and value, Sterling locks are designed for long-term peace of mind. To find out more visit [www.sterlinglocks.com](http://www.sterlinglocks.com) or call 0113 250 3603. **<Ends>**
