## Well anchored security solution from Sterling Link&Lock

With the summer approaching demand for security solutions for warm weather hobbies, such as gardening and barbecuing, biking and boating are on the increase. The new Security Anchor range from Sterling Link&Lock provides the ideal security solution for these outdoor activities. Securing the anchor to the ground, wall or shed provides a permanent security chain or cable fixing.

The Sterling Security Anchor Kit (ssp £19.99) has all the items needed to install a domestic security anchor fixing. Ideal for securing bikes, ladders or lawn mowers, the kit contains a 4mm hardened steel anchor, steel cover and 49mm long shackle weatherproof padlock. The cover, placed over the anchor, conceals the fixings for extra

security.

The Sterling heavy-duty Security Anchor (ssp £13.99) comprises of a large 6mm hardened steel plate that can be secured to a wall or the ground using strong compression fixing bolts. This tough security fixing for chains or cables, recommended for use with a Sterling heavy-duty padlock, is ideal for heavyweight items such as trailers and motorbikes.

For more information about the Sterling Link&Lock range call Phoenix Security Products Ltd on 0113 250 3603.
